

Advanced Treatment Table
10 Section M4 Table

M4-10

A treatment table is the 'body' of the therapist. As natural healing is a global trend, the M4 can suit non-invasive manual treatment in any position. The therapist can adjust every section comfortably.

Color

Treat your patients with the very best table

Every section can be adjusted easily depending on the patient's condition. The 10 section adjustments offer optimized treatment for any patients.

Newly developed professional table

The stable vertical lifting ensures your patients feel secure throughout their treatments. The ergonomic design reduces fatigue for therapists and the therapists can provide best treatment for their patients.
